Butterfly Valves. Pneumatic & Electric Actuators. Check Valves.

Safety Relief Valves. Steel Exhaust Heads.

Control Valves. Safety Relief Valves. Steam Traps.

Asahi/America

Thermoplastic Ball & Butterfly Valves. Pneumatic Actuators & Accessories.

Solenoid Valves & Angle Body Multi-Purpose Valves

CP, Inc. Products
Flange Conversion Kits, Gaskets, Control Panels

Delta Cooling Towers, Inc.

Corrosion Proof (HDPE) Cooling Towers.

Plate & Frame and Brazed Plate Heat Exchangers.

Metal Bellows Expansion Joints & Flexible Connectors.

Flow Meters. Level Gauges. Temperature & Pressure Transmitters.

Pressure Regulators. Pneumatic Relays, Boosters & I/P Transducers.

Steam Traps. Centrifugal Pumps. Condensate Return & Boiler Feed Systems.

Valve Position Transmitters & Beacons. Valve Positioners.

Steam Traps & Specialties. Pressure-Operated Condensate Pumps.

Pilot-Operated Liquid Regulators.

Water Tube Boilers for Steam, Hot Water, & Thermal Fluid. Condensing Boilers. Deaerators.

API Ball Valves. Butterfly Valves. Pneumatic Actuators.

Condensate Return & Boiler Feed Systems.

Ball Valves. Globe Valves & Check Valves. Pneumatic & Electric Actuators.

Pressure & Temperature Regulators. Control Valves. Safety Relief Valves.

Strainers. Check Valves. Butterfly Valves. Pump Protection Products.

Pressure Gauges & Thermometers. Temperature Regulators.

Steam Traps & Specialties. Pressure-Operated Condensate Pumps.

Valve Positioners & Accessories.

CUSTOM SERVICES

Repair Services

Our fully-equipped shop has the ability to repair most of the products we sell, including regulators, control valves, traps, pumps, and safety valves.

Assembly & Testing

We assemble and test our temperature regulators, control valves, and safety valves in our shop to ensure quick delivery and dependable operation.

Special Applications

Control Products has the technical expertise to size, design, and fabricate control packages as well as condensate pump and heat exchanger assemblies.

Steam System Surveys

Our trained personnel can evaluate your steam system using the latest equipment to determine areas for improved efficiency.
